

Luminaire with a simple, classic shape, designed as surface mounted. The luminaire body is made of steel, PMMA opal diffuser. General lighting fixture, available in three sizes. It is perfect for halls, public utility buildings, residential buildings and communication routes.

IP20

general data

luminaire body	steel
mounting type	surface mounted
ingress protection IP	20
operation temperature range	from -40° to +30°
lifetime L80B10	50 000h

electrical data

nominal voltage	220-240V AC
nominal frequency	50-60Hz
protection class	I
contains light source	yes
connection	connector through
dimming	none (options: DALI, Casambi)

lighting data

light source	LED
colour rendering index	CRI>80
tolerance of luminous flux	+/-10%

optical data

optical system	opal diffuser
material	PMMA
light emission	direct
light distribution	symmetrical
