

The Travis outdoor luminaire is an ideal solution for illuminating building facades. Thanks to ingress protection class IP44, the luminaire is resistant to external factors. It will be perfect for lighting entrances, driveways, terraces and balconies.

IP44

### general data

luminaire body	stainless steel
mounting type	surface mounted
ingress protection IP	44

### electrical data

nominal voltage	220V-240V AC
nominal frequency	50-60Hz
protection class	I
contains light source	no
connection	wiring

### lighting data

light source	LED
socket	GU10

### optical data

optical system	opal diffuser
material	glass
light emission	direct
light distribution	symmetrical

code	mounting type	power [W]	dimensions [mm]	height [mm]	weight [kg]	box [mm]
E1058.C	surface mounted	4	100x100	100	0,5	120x120x120

### C-standard colour

black

light grey

anthracite

### accessories

124.00	connector IP68
